

The Inner Light Chamber Teacher Training is an invitation to refine your skills, to sit in your rising mastery to be the teacher, the guide, the healer whom leads and assists others along their healing path.

Three day in person program of the training:

This quintessential gathering is laying the groundwork. During our time together we will:

- touch into each key
- spend time in inquiry and reflection
- allow new energies to flow in
- enter ceremony
- dissolve any blocks or fears surfacing
- receive guidance from the Spirit Doctor Team

All the while creating a cohesive energy of support within an open field of possibility.

Our six follow up sessions are oriented toward a deeper exploration of each key, working with your strengths while also identifying where additional support may be beneficial. These sessions support the continued deepening of your practice and the development of new programs that reflect your evolving gifts and vision.

The Teacher Training is a living energy system. Each practitioner leads from their innate gifts and talents, contributing to the whole. Our collective invitation is to stretch beyond what is familiar, learn from one another, and build a steady platform and network rooted in trust, collaboration, and shared growth.

Congratulations on considering this next step in your life and your practice. Your willingness to say “yes” to this level of commitment is an affirmation of your readiness to lead, serve, and expand in meaningful ways.
